Players for Radical Agenda

- Alfred Kinsey – Pedophile from the 1930's who introduced the sexual revolution. His research was done by paying men to sexually abuse their children and fill out a survey for money and reading journals of pedophiles in prison. His "research" is the base of every sex ed curriculum in the world. There is a YouTube documentary series uncovering I encourage everyone to watch Kinsey Cover-up - Part 1 & Part 2

- Ben Levin - Convicted Child Sex Offender who wrote Ontario Sex Ed. Jailed for pedophilia

Actions

- Justice Center For Constitutional Freedoms is taking the AB government to court over Bill 24
- Churches need to stand together for Families
- Spread Truth through conversations and activating People to take action
- Become members of a political party to have a say in creation of policy
- I am currently writing a blog on faith based parenting. Parents need to take back the responsibility of raising their children.
<https://www.facebook.com/createagratefulheart/>
- As a corporate body we need to be praying for our city, our province and our nation.
- Patents need to take back the responsibility of rasing kids. Have your kids know who they are in Christ that they are not converted, they are the ones converting

The easiest way to take away people's rights and freedoms is to convince them to give them away

The time is now to STAND UP for our beliefs before they are taken away
